[3 Factors That Stabilize Free Radicals](#) [Master Organic ...](#)

In the last post we introduced free radicals neutral, electron-deficient chemical species with a partially filled orbital and learned that they are highly reactive intermediates in organic chemistry. In this post we'll cover two of the most important.

[Free-radical reaction - Wikipedia](#)

A free-radical reaction is any chemical reaction involving free radicals. This reaction type is abundant in organic reactions. Two pioneering studies into free radical reactions have been the discovery of the triphenylmethyl radical by Moses Gomberg (1900) and the lead-mirror experiment described by Friedrich Paneth in 1927.
